You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type This product is a Packaged Retail and Insurance-based Investment Products (PRIIP) and consists in EUR-denominated ordinary shares issued by CVC Income & Growth Limited (registration number: 112635) (the “Company” or “Product”), which is a Jersey closed-ended investment company. The Company’s EUR-denominated ordinary shares are traded on the Main Market of the London Stock Exchange (LSE) under ticker “CVCE”. The Company is also the PRIIP manufacturer.

Objectives The objective of this Product is to provide shareholders with regular income returns and capital appreciation from a diversified portfolio of predominantly sub-investment grade debt instruments.

Investment policy: The Company’s investment policy is to invest predominantly in debt instruments issued by companies domiciled, or with material operations, in Western Europe across various industries. The Company’s investments are focused on the senior secured obligations of such companies but investments are also made across their capital structure. The Company pursues its investment policy by investing in CVC European Credit Opportunities S.a.r.l (the “Investment Vehicle”).

Intended retail investor This Product is intended for investors who are prepared to take a relatively high level of risk of loss to their original capital in order to achieve a higher potential return. This Product is intended to form part of a diversified investment portfolio.

Term The Product has no maturity date. The Directors are required to propose an ordinary resolution (the “Continuation Resolution”) that the Company continues its business if the following occur: (i) the NAV falls below €75 million; or (ii) if a share class is delisted for any reason, or, if in any rolling 12 month period, the average daily closing market price of any class of Shares during such 12 month period is 10% or more below the average NAV per share (calculated inclusive of current year income). If a Continuation Resolution is not passed, the Directors are required to put forward proposals within six months for the reconstruction or reorganisation of the Company to the shareholders for their approval. In addition, it is the stated intention of the Investment Vehicle directors to wind up the Investment Vehicle in 2031, however the Investment Vehicle directors may extend such term at their sole discretion.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Investment performance information

The main factors that will affect the performance of the Investment Vehicle, and therefore the Company, are (i) the ability of CVC Credit Partners and its affiliates to carry out the Investment Vehicle’s investment strategy efficiently; (ii) the performance of the investments made by the Investment Vehicle, and (iii) the macroeconomic conditions that the Company and the Investment Vehicle operates in.

Our forward-looking ex-ante moderate performance scenario return is -1.196% per annum over the Recommended Holding Period of 5 years. We have used this ex-ante return to model the Reduction in Yield in the calculations set out in the ‘What are the costs?’ section below.

The volatility of the Company’s returns will vary. The average volatility observed over a rolling 5-year period was 0.0237% per annum.

The Investment Vehicle may experience a high proportion of defaults within the portfolio during periods of stress, which could result in you losing all of your investment in the Company.

The Product is not managed with reference to a benchmark.

What could affect my return positively?

Specific factors that could affect returns of the Company positively would be good performance of the European and US credit markets and companies within the Investment Vehicle’s portfolio as well as the ability of CVC Credit Partners and its affiliates to select investments within the credit opportunities universe that perform well. Increased valuations of the investments held, the narrowing of market credit spreads, and improving macro-economic conditions are also all likely to positively impact returns on the Company. We would expect larger upward market movements in the European and

KEY INFORMATION DOCUMENT

US markets to correlate with improvements in credit quality in the Company's underlying investments.

What could affect my return negatively?

Specific factors that affect returns of the Company negatively would be underperformance of the European and US leveraged loan markets, with investments possibly defaulting or in distress. Poor selection of credit opportunity investments would also likely

negatively impact returns. General factors that would negatively impact returns would be the possible impact on issuers of a sharp increase in interest rates and an extended period of economic recession. A broadening of credit spreads, any downturn in macro-economic conditions and a decrease in valuations of debt investments are all likely to negatively impact returns.

What happens if CVC Income & Growth Limited is unable to pay out?

The Company's shares are listed on the Premium segment of the London Stock Exchange's Main Market. Should the Company be liquidated, the amount you receive for your holding will be based on the value of assets available for distribution after all other liabilities have been paid. Shareholders in the Company do not have the right to make a claim to the Financial Services Compensation Scheme or any other compensation scheme in the event that the Company is unable to pay out.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the Product itself, for three different holding periods.

They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

Costs over time

The person selling you or advising you about this Product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

The following costs are not included in the entry and exit fee calculation: broker commission, entry and exit charges paid to your fund manager, platform fees, mark ups, stamp duty, transaction tax and foreign exchange costs.

Investment EUR 10 000

Scenarios	If you cash in after 1 Year	If you cash in after 3 Years	If you cash in after 5 Years
Total costs	278.30	846.03	1 444.80
Impact on return (RIY) per year	2.78%	2.74%	2.74%

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

This table shows the impact on return per year

One-off costs	Entry costs	0.00%	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.03%	The impact of the costs of us buying and selling underlying investments for the Product.
	Other ongoing costs	2.40%	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance fees	0.00%	The impact of the performance fee.
	Carried interests	0.00%	The impact of carried interests.

How long should I hold it and can I take my money out early?

Recommended holding period: 5 Years

This Product has no required minimum holding period but is designed for long term investment; you should be prepared to stay invested for at least 5 years. The Company's ordinary shares are traded on the Premium segment of the London Stock Exchange's Main Market. Shareholders wishing

to realise their investment may do so by selling their shares on the Main Market. Investors may redeem their shares in certain circumstances by utilising the contractual tender facility. Further information is available in the Prospectus.

How can I complain?

As a shareholder of CVC Income & Growth Limited, GBP Ordinary Shares you do not have the right to complain to the Channel Islands Financial Ombudsman about the management of CVC Income & Growth Limited. If you have any complaints about the Product or conduct of the manufacturer or the person advising on, or selling the Product you may lodge your complaint in one of three ways:

- Website: ig.cvc.com
- Email address: jersey_bp2s_fund_compliance@bnpparibas.com
- Postal Address: IFC1, The Esplanade, St Helier, Jersey, JE1 4BP

Other relevant information

Please see ig.cvc.com for further details and all documentation related to this investment company.

Other ongoing costs:

Other ongoing costs are calculated on a three year average. The yearly costs are as follows:

	3 year average	2021	2020	2019
Administrative expenses	0.53%	0.65%	0.54%	0.39%
Management fee	0.98%	0.94%	1.00%	1.00%
Interest expense	0.89%	0.83%	0.84%	1.01%
Total other ongoing costs	2.40%	2.42%	2.38%	2.40%

Performance fees:

On 17 February 2023, the Board of the Company was notified by the Investment Vehicle that CVC Credit Partners Investment Management Limited (the Investment Services Manager) has waived its future right to receive an Investment Vehicle performance fee, such waiver to take effect from 1 January 2023.

This document is required to be updated annually to reflect current costs and market practice. The annual and half year financial reports may be obtained in hard copy without charge from the Company's offices or in soft copy from the Company's website. Monthly performance reports are also available on the Company's website. The scenarios of estimated future performance are based on historical share price and are not an indicator of future performance.
